

Tucker J. Furniss, PhD

Assistant Professor

Dept. of Ecosystem Science and Management, University of Wyoming
Email: tfurniss@uwyo.edu • Cell: (831) 818-3216 • Web: www.tuckerfurniss.com

EDUCATION

PhD	Utah State University.	<i>Ecology.</i>	2021
MS	Utah State University.	<i>Ecology.</i>	2016
BS	University of Washington.	<i>Environmental Science and Resource Mgmt.</i>	2011

PROFESSIONAL APPOINTMENTS

Assistant Professor	2023-present
Department of Ecosystem Science and Management <i>University of Wyoming</i>	
Postdoctoral Researcher	2020-2023
Mentor: Dr. Paul Hessburg <i>USDA-Forest Service Pacific Northwest Research Station</i>	
Graduate Research Assistant	2014-2020
Advisor: Dr. James Lutz <i>Department of Wildland Resources, Utah State University</i>	

GRANTS AND AWARDS

Total awarded funding: \$570,774; As lead PI: \$499,500

- Building next generation post-fire tree mortality models and examining interactions between drought, density, and fire severity on post-fire recovery trajectories. *CA Department of Forestry and Fire Protection*. Lead PI. 2023-2028. \$499,500
- Longitudinal monitoring of forest health and resilience. *McIntire-Stennis Capacity Grant*. Co-PI. 2023-2028. \$45,000
- The Landscape Restoration Simulator. *Washington State Department of Natural Resources*. Co-PI. 2022-2023. \$67,800
- The Landscape Restoration Simulator: Nason Creek Pilot Project. *Washington State Department of Natural Resources*. Co-PI. 2022. \$28,200
- Interactive effects of drought, fire, and bark beetles on tree mortality in the Sierra Nevada, California. *Joint Fire Science Graduate Research Innovation* (award #19-1-01-10). Student Investigator. 2019-2021. \$24,774
- Spatial Dynamics of Surface Fuels Following Reintroduced Fire. *USU Ecology Center Graduate Research Award*. Student Investigator. 2018-2019. \$4,928
- Edaphic effects on plant communities: do small scale variability in soil resources influence forest composition, structure, and spatial patterns? *USU Ecology Center Graduate Research Award*. Student Investigator. 2016-2017. \$1,942

SERVICE

Department

College

University

Professional

Society Affiliations: Ecological Society of America, Xi Sigma Pi, Society of American Foresters, International Association for Landscape Ecology, Association for Fire Ecology

Journal reviewer: Ecological Monographs, Ecological Processes, Ecology and Evolution, Fire, Fire Ecology, Forest Ecology and Management, International Journal of Wildland Fire, Journal of Vegetation Science, Nature Plants, Remote Sensing, Remote Sensing of Environment, Scandinavian Journal of Forest Research, Science of the Total Environment

Grant review panels:

2023: Co-chair for the Joint Fire Science Program Graduate Research Innovation Grant (GRIN) Review Process

2022: Joint Fire Science Program Graduate Research Innovation Grant (GRIN) Review Panel Lead

Other:

2022-present: Associate Editor: *Fire*

2020: Oral Session Organizer: *Enhancing Our Ecological Understanding of the New Fire Normal With Large Datasets, Novel Methods, and New Perspectives*. Ecological Society of America Annual Meeting.

2018-2019: Science fair judge – Hillcrest Elementary Annual Science Fair

2019: Review panel for Disturbance Ecology (WILD 5710) Research Proposals

2018-2019: USU Ecology Center Seminar Selection Committee

2018: Restoring the West Conference Speaker Selection Committee

TEACHING EXPERIENCE

Instructor:

REWM/ECOL 4440/5440 – Applied Fire Ecology. University of Wyoming. *Fall, 2024-ongoing*

REWM/ENR 2100 – Ecological Forest Management. University of Wyoming. *Spring, 2024-ongoing*

WILD 6900 – Spatial analysis of sessile organisms. Utah State University. *Fall 2019.*

Guest lecture/teaching assistant:

ECOL 5900 - Experimental Design. Guest lecture: “Observational research and natural experiments”. University of Wyoming. October 2023.

ECOL 5100 - Ecology as a Discipline. Guest lecture: “Scaling forest dynamics in space and time”. University of Wyoming. September 2023.

REWM 2400 – Rangeland Ecosystems and Plants. Guest lecture: “Spatial Ecology of Disturbance Processes”. University of Wyoming. October 2022.

EarthWatch “The fall of giants: Old-growth trees in the American West”. Field Team Leader (*Summer 2018*)

WILD 6730 – Forest Community Ecology (graduate level). Guest lecture: “Introduction to point pattern analysis”. Utah State University. November 2017.

WILD 5710 – Forest Vegetation Disturbance Ecology and Management (graduate level). Guest lecture: “Conducting pathology exams and identifying agents of tree mortality”. Utah State University. Spring 2017.

WILD 5710 – Forest Vegetation Disturbance Ecology and Management (graduate level). Guest lecture: “Field methods and long-term forest dynamics plots”. Utah State University. Fall 2014.

WILD 4570 – Forest Ecology of the Sierra Nevada and White Mountains. Utah State University. Graduate teaching assistant during Yosemite Forest Dynamics Plot research pulses in the summers of 2014-2018.

ESRM 442 – Forest Ecology of the Sierra Nevada and White Mountains. University of Washington. Guest lecture and field team leader. Taught field methods during Yosemite Forest Dynamics Plot research pulses in the summers of 2011-2013.

FORS 391 – Forest Ecology of the Sierra Nevada. University of Montana. Guest lecture and field team leader. Taught field methods during the Yosemite Forest Dynamics Plot research pulses in the summers of 2014 and 2019.

NATRS 420 – Long-term Research in Forest Ecosystems: Old-growth Forests of Yosemite National Park. Washington State University. Guest lecture and field team leader. Taught field methods during Yosemite Forest Dynamics Plot research pulses in the summers of 2011-2018.

Student evaluations:

“Tucker did a fantastic job... He was always available to meet after class and discuss how the courses content related to my data.”

“very approachable and very helpful.”

“Explained difficult material in a clear way. Worked with each student until we all understood the material. Provided us with code to apply material, and provided lab activities for us to learn how to creatively manipulate the code.”

RESEARCH EXPERIENCE

Postdoctoral Research Fellow. <i>USFS PNWRS.</i> Supervisor: Dr. Paul Hessburg. -Oak Ridge Institute for Science and Education (ORISE) Fellow -Developed a process-based landscape disturbance, succession, and management model (LANDIS-II) for north-central WA state to examine how fire, climate, and management will interactively determine ecosystem stability and landscape resilience over the coming century.	2020-present
Graduate Research Assistant. <i>Utah State University.</i> Advisor: Dr. James Lutz. -Dissertation title: <i>Big fires, big trees, and big plots: Enhancing our ecological understanding of fire with unprecedented field data.</i> -Funded by Joint Fire Science Program awards #16-1-04-02: <i>Using multi-scale spatial data to improve predictions of immediate and delayed post-fire mortality</i> , and #19-1-01-10: <i>Interactive effects of drought, fire, and bark beetles on tree mortality in the Sierra Nevada, California</i>	2017–2020
Field technician. <i>University of Montana.</i> Supervisor: Dr. Andrew Larson. -Post-fire fuel and vegetation sampling in the Bob Marshall Wilderness, MT. Two weeks each summer.	2016–2017
Graduate Research Assistant. <i>Utah State University.</i> Advisor: Dr. James Lutz. -Thesis title: <i>The Utah Forest Dynamics Plot: long-term ecological monitoring and theoretical ecology in a high-elevation subalpine environment</i>	2014–2016
Crew Lead and Research Assistant, <i>Utah State University.</i> Supervisor: Dr. Jim Lutz	2013–2014
Crew Lead and Research Assistant, <i>University of Washington.</i> Supervisor: Dr. Jim Lutz	2011–2013
Undergraduate Research Project, <i>University of Washington.</i> Advisor: Dr. Stanley Asah -Title: Gardeners' Perceived Benefits of Community Gardens in Seattle.	2010–2011

SKILLS, CERTIFICATIONS

Statistical expertise (from research published as lead author):

- Generalized linear mixed models (GLMMs)
- Ordination (NMDS and PCA)
- Point pattern analysis (e.g., pair-correlation function, Ripley's K, random labelling analysis)
- Random forest
- Cluster analysis
- Decision support modeling
- Process-based model validation and calibration
- Distributed hydrology modeling

Skills:

- Software expertise: R; LANDIS-II; Google Earth Engine; ArcGIS; MySQL; Adobe CC.
- Land survey: designing surveys, establishing control loops, and installing permanent survey markers using Total Stations and survey-grade GNSS receivers
- Arc, MIG, and TIG welding
- Twenty+ years of backcountry experience (backpacking, pack rafting, backcountry skiing, climbing, canyoneering, and Leave No Trace ethics and practices)
- Fifteen years of experience coordinating camp logistics for 25-35 people during research pulses

Certifications: Wilderness First Responder (2012 – 2020), CPR (2010 – 2020), Wilderness Anaphylaxis Training (2017 – 2020)
